

eSDScom: Tools and Processes

BDI Conference on eSDScom

After merging EScm and SDScom, the latest release eSDScom 5.4 covers Exposure Scenarios for the first time. For European Safety Data Sheets, this now provides comprehensive coverage of all data requirements, as was already the case for Argentina, Brazil, Mexico and the USA. And more regions will follow!

However, the successful implementation of data exchange not only requires a good interface specification, but tools for tasks such as editing, printing, and data quality checks. While integrated software systems may have their own solution, standard tools lower the implementation burden, reduce systems administration, and enable users to deliver and evaluate eSDScom with less infrastructure or budget.

This conference provides an update not only on the latest specification developments, but also on existing tools and their development state. For the transitional phase while PDF is still the most common safety data sheet format, you will also gain valuable insight on conversion options.

08:30 Web dial-in (for online participants)

09:00 Welcome

Thomas Holtmann

BDI – Federation of German Industries

09:15 eSDScom Version 5.4

Merging of SDScom and EScm

Dirk Henckels

Qualisys GmbH

09:45 eSDScom editor project

Online editor for eSDScom Version 5.4

Geoff Brooks

Independent Developer

10:30 Discussion/Break

11:00 eSDSphrac editor and discussion tool

Presentation of the new online platform

Dirk Henckels

Qualisys GmbH

11:20 Validation criteria for Safety Data Sheet quality

ACEA SDS Guidance

Anita Hillmer

ACEA

11:45 Update on CHESAR and supply chain work

Andrew Murray/Constance Hoekzema

ECHA

12:15 Lunch break**13:15 PDF Conversion Tools***Live demonstration of PDF test cases by software companies*

Coac GmbH, GeSi Software GmbH, Helasoft GmbH, Verisk 3E, Datalyxt GmbH

Moderatorin: Mirjam Merz

BDI – Federation of German Industries

15:00 Discussion/Break**15:30 Summary of the PDF demonstration**

Thomas Janssen

BASF Polyurethanes GmbH

15:45 Conclusion and Outlook

Thomas Holtmann

BDI – Federation of German Industries
